

DUCK DAO - DDIM

THE «DUCK DAO DIME»

As a community we are strong! After an insane growth of our closed private group it is time for some changes and everybody has the chance to be a part of the future DuckDAO.

How it works:

To be part of the Private Group you will need to hold 200 DDIM, to enter the VIP group the amount is 2500 DDIM. On top of that there will be a VVIP Group (DDIM amount not set yet) and a Top10RichList, which can always be seen on [Etherscan.io](https://etherscan.io).

To enter our deals in the future, it is a must to hold 200 DDIM on your registered DuckDAO Wallet. The VIP and VVIP group has earlier access to the deals and some other advantages, and the Top10RichList has additional rights in VotingPower.

DUCK DAO - DDIM

PRESALE

In the beginning you can buy DDIM @ ~0.05* - 0.20\$ directly from the DuckTeam in a pool (first come first serve, unsold tokens go into the Treasury):

	Total Batch DDIM	Slots	Ind. Cap Token	Price ETH	Batch Cap	Indi Cap ETH
Batch 1	30000	60	500	0,0001250	3,75	0,0625
Batch 2	60000	120	500	0,0003750	22,5	0,1875
Batch 3	90000	180	500	0,0006250	56,25	0,3125
Batch 4	140000	240	583,3333333	0,0007500	105	0,4375

Fill up batch	80000			0,000875	70	
					257,5	
After first 60 TX batch 1 is sold out. This means you will start with the second batch.						
All what hasn't made it into the batch 1 will be moved to the Fill up batch.						
For 240 Slots the IndiCap is 1 ETH. You can send more, and in case that not all 240 Slots from Batch 1 to Batch 4 get filled, you will get more tokens from Batch 1 - 4. In case more than 240 Slots get completely filled, there is a 40k Tokens left from the filler batch where you get your share from. Remaining eth gets refunded.						

HardCap Sale
